EDUCATION

Trent University 2023 – Apr 2027 (expected)
Honours Bachelor of Science, Computer Science, specialising in Data Analysis | GPA: 84.4%

- Dean's Honour Roll (2023/24, 2024/25, 2025/26) · Global Citizen Award (2023)
- Relevant coursework: Databases, Data Structures & Algorithms, Statistics, Linear Algebra

TECHNICAL SKILLS

Languages: Python, SQL, C
Data & Analytics: pandas, NumPy, scikit-learn, SciPy, Matplotlib, Power BI, Power Query, DAX, Excel
Databases & Tools: SQLite, Git/GitHub, Jupyter, Linux, GCC, GDB
Methods: Data cleaning, exploratory analysis, A/B testing, cohort analysis, predictive modelling, dashboarding

EXPERIENCE

Breaking Games Feb – Apr 2024
E-Commerce Data Analysis & Strategy Extern (Remote)

- Cleaned and validated e-commerce sales datasets in Excel and Python (pandas) to make them reporting ready and cut manual errors.
- Analyzed sales and operational metrics to surface pricing gaps, demand trends, and growth opportunities for the product team.
- Built structured summary reports and kept organized records that stakeholders used in pricing and product decisions.

Trent University 2023 – Present
Data Analyst / Software Developer (Academic Projects)

- Built interactive dashboards and reports in Power BI, Power Query, and DAX to track performance and engagement metrics.
- Ran data cleaning, quality checks, and exploratory analysis on academic datasets using Python and Excel.
- Created visualizations with Matplotlib to communicate trends and comparisons clearly.
- Wrote, tested, and debugged C programs in a Linux environment using GCC and GDB.

Blitz Speed Dating Jan 2026 – Present
Co-Founder & Co-Creator | blitz-speed-dating.com

- Co-built and launched a live web app that pairs users into one-on-one speed-dating sessions in real time, similar to Omegle.
- Grew the platform to **130+** signups, owning product, real-time matchmaking flow, and user onboarding end to end.

DATA ANALYTICS PROJECTS

E-Commerce Sales Dashboard Plotly.js, JavaScript, HTML

- Built and deployed a live interactive dashboard over **5,000+** orders with 6 KPI cards, channel filtering, and dual-axis promotion analysis, tracking **\$144.8K** in revenue.

E-Commerce Sales Analysis & Strategy Python, pandas, Matplotlib

- Analyzed **5,000+** orders, found Amazon leading at **37%** share and December revenue at **2.3x** February, and delivered channel, pricing, and regional recommendations.

Customer Churn Analysis & Prediction Python, scikit-learn

- Analyzed **7,500** customers (month-to-month churn **51.8%** vs **7.9%**) and built a logistic-regression model with **0.798 ROC-AUC** that recalls **75%** of churners.

A/B Test Analysis, Checkout Redesign Python, SciPy

- Measured a **+10.3%** conversion lift on a **16,000**-user experiment (**p = 0.023**), confirmed revenue per user rose **\$6.32 to \$7.38**, and made the ship call.

Cohort Retention & Lifetime Value Analysis Python, pandas

- Built retention matrices across **9,245** customers and **18** cohorts (month-1 **77.5%**, month-3 **53.0%**) and estimated average **LTV near \$123**.

SQL Analytics Portfolio SQL (SQLite)

- Wrote **7** analytical queries on a **70,000+**-row retail database using joins, window functions, CTEs, and cohort logic; found Electronics drives **45.4%** of revenue.

ADDITIONAL EXPERIENCE

Camp Counsellor | Walkhome Volunteer | Habitat for Humanity Volunteer
